

## IMPORTANT UNITED STATES PATENTS

Please consider, as well, the following US Patents which - if in use - could contribute to the alarming rise in Alzheimer's, Asthma, and Autism.

**U.S. Patent 5,360,162 - November 1, 1994: "Method and composition for precipitation of atmospheric water."** Its "Abstract" reads as follows, "A method for precipitating atmospheric water by means of multi-component aerosols, including iodide based complex multi-component aerosol compositions. The compositions comprise a solid mass formed by a compacted mixture of silver iodide and the iodides, iodates, and periodates of alkali metals, lead, copper, barium; ammonia, barium chromate, and selected oxidizers such as ammonium perchlorate, and fuels such as poly-p-phenylene, phenol formaldehyde resin, epoxide resin, and shellac and mixtures thereof. The compositions, upon burning, produce an aerosol effective to promote atmospheric water precipitation."

**U.S. Patent 3,899,144 - August 12, 1975: "Powder *contrail* generation"** - "Abstract: Light scattering pigment powder particles [can be titanium dioxide, colloidal silica and silica gel], surface treated to minimize in particles cohesive forces, are dispensed from a jet mill deagglomerator as separate single particles to produce a powder *contrail* having maximum visibility or radiation scattering ability for a given weight material." [Note the date of this patent and the one following.]

**U.S. Patent RE29, 142 February 22, 1977: "Combustible compositions for generating aerosols, particularly suitable for cloud modification and weather control and aerosolization process."** Abstract: A combustible composition for generating aerosols for the control and modification of weather conditions consisting of a readily oxidizable substance selected from the group consisting of aluminum, magnesium, alkali-metals and alkaline earth metals..."

There are many patents which are unregulated and may be used in combination, without research concerning their individual or combined effects on our atmosphere and the natural systems of Earth.
