#### 'Do Not Call' List Loophole

Consumers have registered 5.8 million phone numbers with the national "Do Not Call" list.

They were hoping to hang up on telephone solicitors for good, however, Global News has learned that is not the case.

#### Light Bulbs and UV Rays

We're told every bulb we switch will help save energy and the planet, but could the new compact fluorescent lightbulbs be damaging our skin? The issue is

ultraviolet radiation, and officials at Health Canada tell Global News that "CFLs are not provided with a prismatic diffuser that filters ultraviolet radiation out. Therefore, there may be skin sensitivity issues, especially in people with certain skin diseases "

So how much UV radiation are they giving off? We don't know. Health Canada is testing the bulbs but declined an on-camera interview.

So we went to London, England to find out.

[Dangerous chemicals may be leaking into the ground in Oshawa.](#)

---

After learning a disused landfill dump in north-east Oshawa was leaking an orange goo, Global News Special Reports started to dig.

Global News learned the last time the Ministry of the Environment did testing was in the early 1990's. But what's been done to protect nearby residents today.

Alarming results of a joint Global News/Canwest News Service investigation into GTA driving schools. Of 30 schools delisted by the Ministry of Transportation, almost one-third still offer courses they claim are Ministry approved. The Ministry of Transportation says it's not illegal to run a private driving school, but it is against the law to say you're Ministry approved if you aren't.
