Records Series Descriptions

Hanford Site

Pacific Northwest Laboratory (PNL)

SERIES TITLE Dietary & Body Burden Data & Dose Estimates for Local School Children & Teenagers

INCLUSIVE DATES 1965 1971

ARRANGEMENT By school and thereunder by name/number assigned to each person

VOLUME 27 cubic feet

DESCRIPTION

The series was compiled to document a study of the influences of diet on radioactivity in people and was conducted at schools in the Richland area. It includes material on another study to analyze the amounts of certain foods consumed by local families and schoolchildren. The series contains analyses of significant pathways through drinking water, locally grown beef, river fish, and game birds, for radioactivity to reach the body. The series consists of diet charts, whole body counter results, printouts, and photos at local schools. A database is maintained of the documents in each box of records. Box numbers (primarily) 027860 027875, 050200 050213.

RESTRICTIONS This series contains privacy material.
