Nuclear Energy is America's Clean and Safe Energy Solution

[Home](#) > Archive by category 'Member Profile'

### [Member Profile](#)

#### [Citizens for Nuclear Technology Awareness \(CNTA\)](#)

Citizens for Nuclear Technology Awareness (CNTA) is a nonprofit, grassroots organization dedicated to nuclear education. “The worldwide resurgence of nuclear power is a direct result of several achievements,” said Mal McKibben, Executive Director of Citizens for Nuclear Technology Awareness. “First, the incredible records of safety, efficiency, and cost of nuclear power are capturing the attention of the public. Also, the public is finally realizing that nuclear power is clean and [read more](#)”

#### [The American Council on Science and Health \(ACSH\)](#)

The American Council on Science and Health (ACSH) is a consumer education consortium concerned with issues related to food, nutrition, chemicals, pharmaceuticals, lifestyle, the environment and health. Here is what Dr. Elizabeth Whelan, ACSH's President, says about their decision to join CASE: "Nuclear energy is a safe technology that should be considered among a range of energy options. Our nation needs to resume building nuclear plants, much as Europe is [read more](#)

## [The Francis College of Engineering](#)

The Francis College of Engineering at University of Massachusetts Lowell has a distinguished reputation for hands-on, practice-oriented education, cutting edge research, and integrating service and research into education at all levels. Here is what Professor Gilbert J. Brown, Coordinator of the Nuclear Engineering Program, has to say about joining Case: A rigorous examination of the present risks, costs, and impact of all electric power sources leads us to conclude that [read more](#)

## [Energy Northwest](#)

Energy Northwest is a state-level Joint Operating Agency (JOA), comprised of 20 member public utilities in Washington. Formed in 1957, the JOA provides electricity at-cost to public utilities and municipalities, and energy-related services throughout the Pacific Northwest region. Vic Parrish, Energy Northwest CEO says, "We joined CASEnergy as part of our broader commitment to environmental stewardship and meeting the energy needs of our public power members. Columbia Generating Station and [read more](#)

## [The New England Energy Alliance](#)

The New England Energy Alliance is a coalition of energy providers, business and trade organizations, and others concerned about future energy supplies. The Alliance advocates for action to ensure the availability, reliability, and affordability of future energy supplies, which are vital to sustain the region's economic growth and prosperity. "Nuclear power is particularly important to New England," says Carl Gustin, President of the Alliance. "The region's five facilities are the [\[read more\]](#)
