# NUCLEAR POWER IS NOT THE ANSWER

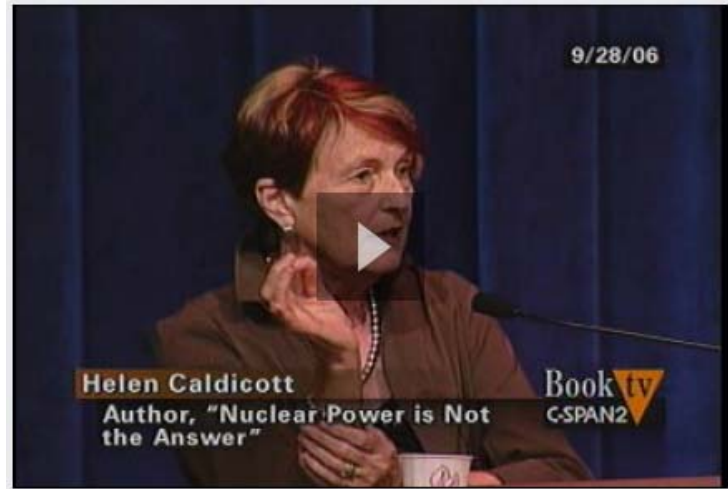

SEP 28, 2006

Georgetown University | Center for the Environment

Helen Caldicott talked about her book *Nuclear Power Is Not the Answer*, published by The New Press. An antinuclear activist, she contended that nuclear power is not the solution to global warming. She examined the costs, toxic effects, and terrorism risks of nuclear energy, and described alternative, renewable energy sources. After her presentation she responded to audience members' questions.
