North Korea Throws Down the Gauntlet

By HENRY A. KISSINGER

Obama needs to recognize that there is no longer any middle way in dealing with Pyongyang's nuclear ambitions. The U.S. either has to accept the North as a nuclear power, or get tough.

Nuclear List Called No Threat

By THE ASSOCIATED PRESS

Government officials said that the accidental Internet posting of a list of government and civilian nuclear facilities included no information that compromised national security.

Corrections

An article on Wednesday about the mistaken release of a report detailing America's civilian nuclear complex described incorrectly a statement on the document's cover about its publication. The statement said the document had been "referred to the Committee on Foreign Affairs and ordered to be printed." It did not directly attribute the report's publication to the committee.
