British Prime Minister Gordon Brown on Global Challenges

Prime Minister Gordon Brown gave remarks on global challenges, describing 2010 as a "make or break year" for international co-operation on a number of policy fronts including the economy, security, and climate change. He also announced Britain was launching a "center of nuclear excellence" where the UK could "lead global efforts to secure the safe global expansion of civil nuclear power."

Friday, March 19, 2010 : London, UK : 58 min.
