Training to Install Solar
Learn from Professional Installers. Small Classes-New Facility-60% Lab.
www.sunprotraining.com/

Mecasolar Solar PVTracker
Profitability Increasses by35% compared ti fixed system
www.mecasolar.com

Free CA Solar Bids
Take the guesswork out of solar Find better installers, better bids
learn.cleanpowerfinance.com

Solar Tax Credit is Here
Save up to 45% off a new Akeena Solar Power System – Learn how!
www.Akeena.com/SolarTaxCredit

Monday • August 18 • 08

New Nanomaterial for Transparent Conductive Solar Cell Coating

Thursday • August 14 • 08

Navy to Build State-of-the-art Electromagnetic Pulse Generator

Tuesday • August 12 • 08

FerroElectric Polymers Used for Next Gen. Flat Panel Refrigerators

Monday • August 11 • 08

Researchers Create "Invisibility Cloak" Light Bending Meta-Material

Thursday • August 7 • 08

Ultra Strong Nanoparticle Magnets, A Revolution for the Electric Motor

Monday • July 21 • 08

Heat Harvesting Devices Developing from Single-Crystal Nanorods

Monday • July 14 • 08

Researchers Use Carbon Nanotubes to Create Artificial Photosynthesis

Thursday • July 10 • 08

Key Component Discovered for Room Temperature Superconductors

Wednesday • July 2 • 08

Scientists Create Exotic New Element "Super Atom Clusters"

Tuesday • July 1 • 08

Scientists to Test High Temperature Solar Electrolysis Reactor

Monday • June 30 • 08

NASA to Deploy Ten Pound Gossamer Wing Solar Sail Spacecraft

Monday • June 23 • 08

Scientists Unlock The Atomic Structure of Flexible Metallic Glass

Tuesday • June 17 • 08

Scientists Transform Organic Material Into "Metal-Like" Conductors

Thursday • June 12 • 08

Room TEMP Superconductors Made Possible from Iron-Based Material

Thursday • June 5 • 08

New Metamaterial Acts Like A Black Hole For Total Light Absorption

Friday • May 30 • 08

Titania Nano-Crystal Discovery Could Revolutionize Solar Energy

Wednesday • May 14 • 08

Scientists Develop High Strength Bendable Liquid Metal

Thursday • May 1 • 08

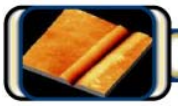
Scientists Using Lasers to Create Artificial Photosynthesis

Friday • April 18, 08

Ford Developing Nano Coatings to Reduce Vehicle Weight

Thursday • April 17, 08

Scientists Create First Ever "Thermal" Rotating Nano Motor



Wednesday • April 9, 08

Scientists Discover New Form of "Superinsulator" Material

Friday • March 21, 08

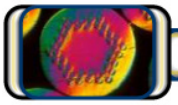
Scientists Make Major "ThermoElectric" Material Breakthrough

Wednesday • March 19, 08

Scientists Fabricate Room Temperature Superconducting Material

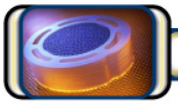
Tuesday • March 4, 08

Student Invents First Polarized LED for Super LCD Screens



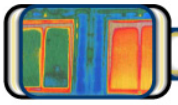
Thursday • February 28, 08

New Superconductive Wire Carries 5X More Power Than Copper



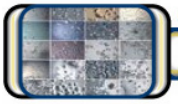
Thursday • February 28, 08

Electricity From Ceramic Fuel Cell is 2X More Efficient than Grid Power



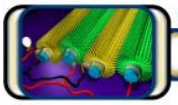
Wednesday • February 27, 08

Revolutionary R-12 Vacuum Glass Turns Windows into Walls



Monday • February 18, 08

Scientists Invent Material that is 5X Better at Capturing Carbon



Thursday • February 14, 08

Scientists Create Microfiber Vibration Nanogenerator

Thursday • February 7, 08

Scientists Develop 3-D Holographic Display

Wednesday • February 6, 08

T-Rays Could Revolutionize Security Screening

Monday • February 4, 08

Laser Light Alchemy Turns Aluminum into Gold

Thursday • January 31, 08

First Commercial Wireless Electricity Experiment in Japan

Thursday • January 31, 08

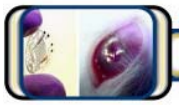
Super Microscope Can Magnify an Atom 20 Million Times

Monday • January 28, 08

Scientists Use Falling Rain To Produce Energy From Vibration

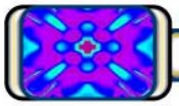
Thursday • January 24, 08

New Dark-Field X-Rays Could Transform Medical Diagnosis



Friday • January 18, 08

Researchers Develop Superhuman Bionic Contact Lens



Monday • January 14, 08

High Temperature Magnetic Superconductor Discovered
