Research

[Inside Renewable Energy: Interview with Dr. Michael Auerbach](#)

DRI's Dr. Michael Auerbach was interviewed by RenewableEnergyWorld.com about Nevada's geothermal resources and DRI's role in studying the consequences of not developing renewable energy.

[Cloud Seeding Program Receives Support from SNWA and TM](#)

Cloud seeding will continue this year in the Tahoe/Truckee River Basin, the Ruby Mountains and with one generator near Tuscarora, Nevada.

[Storm Peak Lab Contributes Data to Microbe Research](#)

Using data collected at DRI's Storm Peak Lab, researchers have found that airborne microbial diversity is much greater than expected.
