

## Libraries

The **NCAR Library** delivers information on climate and meteorology in support of NCAR. Online resources are available via UCAS password. Visitors may use the library's four physical collections at the Mesa, Foothills, Center Green, and RAF/Jeffco campuses.

The **Digital Library for Earth System Education** (DLESE) is a community-led effort to promote access to high-quality digital resources for teaching and learning about the Earth at all levels. DLESE is the geoscience member library of National Science Digital Library (NSDL).

Search DLESE

The **National Science Digital Library** (NSDL) seeks to both deepen and extend science literacy through access to educational materials that reveal the nature of the physical universe, including the fields of science, technology, engineering, and mathematics.

Search NSDL

The **Visuals & Multimedia** page provides access to the **UCAR Digital Image Library** and other sources for photos, illustrations, webcasts, and other multimedia formats.

The **Archives** collects and preserves records that broadly document the history of NCAR and UCAR, from plans and development of the Mesa Laboratory to oral histories of eminent atmospheric scientists.

Our **Acronym List** decodes the meaning of hundreds of atmospheric research and organizational acronyms.
