CLOUD SEEDING

Weather Modification, Inc. (WMI) uses innovative and state-of-the-art cloud seeding technologies to enhance the natural efficiency of clouds, thus increasing snowpack and/or rain, mitigating hail damage, or dispersing supercooled fogs. By customizing programs to specific client needs, WMI provides a full spectrum of cloud modification technology. Employing sophisticated radar and seeding equipment in conjunction with highly qualified meteorologists, pilots, mechanics, and technicians results in the most cost-effective programs possible.
