PROJECTS

WMI's qualified staff, experience, superior equipment, and proven success in weather modification operations around the world is unmatched by any competitor. WMI specializes in the use of aircraft and weather radar : latest GPS satellite computer tracking systems. With extensive knowledge and experience in the industry, WMI is known for its successful cloud modification for hail suppression and precipitation enhancement in the northern Great America and has been active since the early 1960s.

The WMI track record speaks for itself. During the summer months, WMI operates more than 5 radars and modern high performance aircraft, staffed by veteran pilots, experienced meteorologists, and radar seeding programs around the world. Our clients include private and public insurance companies, water resource organizations, and federal and state government research organizations.

Project Flight Hours: 42,978.94 hours flown as of 30 November 2003.

Below is the listing of the WMI projects by type. Those projects that are currently operational are marked with

Precipitation Enhancement Projects

- » [Nevada \(DRI/Reno\)](#)
- » [Idaho](#)
- » [North Dakota*](#)
- » [West Central Texas](#)
- » [Morocco](#)
- » [Burkina Faso](#)
- » [Andhra Pradesh, India*](#)
- » [Karnataka, India*](#)
- » [Maharashtra, India*](#)

Hail Damage Mitigation Projects

- » [Alberta*](#)
- » [Argentina](#)
- » [Greece](#)
- » [North Dakota*](#)

Research Projects

- » [BAMEX](#)
- » [United Arab Emirates](#)
- » [Utah](#)
