*Our Mission*

The North American Interstate Weather Modification Council (NAIWMC) is a non-profit, tax-exempt organization comprised of regulatory agencies, sponsoring organizations, and research institutions involved in atmospheric water resource management technology, commonly known as weather modification or cloud seeding. The NAIWMC exists to facilitate the free exchange of information regarding cloud seeding research and operations in North America.

*Presentations from Arizona Weather Modification Conference & Workshop*

Presentations are available from the September 30th Arizona Weather Modification Conference and Workshop. [Click here to view.](#)

*Nature Editorial Calls for Weather Modification Research*

Renowned journal, Nature published an editorial calling for a renewed effort in weather modification research on June 18, 2008. [Click here to view.](#)

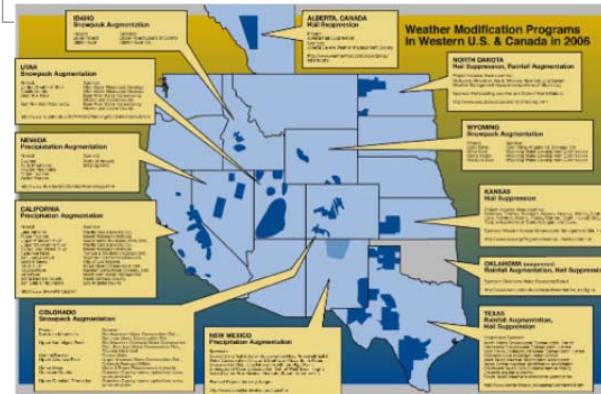

*News*

Congressman Mark Udall (D-CO) introduced H.R. 3445 in the U.S. House of Representatives on August 3, 2007. The bill would establish the weather mitigation operations and research board that would administer research and development grants in the field of weather modification. The bill is similar to S. 1807, introduced by Senator Kay Bailey Hutchison (R-TX) on July 17, 2007 in the U.S. Senate.

*News*

Senator Kay Bailey Hutchison (R-TX) has introduced S. 1807 that would create a Weather Mitigation Advisory and Research Board to oversee funding of research in weather modification. See the bill by following the Congressional Activities link.
