## US Law - Weather Modification: Experimenting

**WEATHER**  
we like it or not!

"Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves. So there are plenty of ingenious minds out there that are at work. Finding ways in which they can wreak terror upon other nations. It's real, and that's the reason why we have to intensify our efforts, and that's why this is so important."

— Former Defense Secretary William S. Cohen  
*USA Today, Business*, Monday, April 28, 1997

"All countries, where appropriate, should develop and implement resettlement programmes that address the specific problems of displaced populations in their respective countries."

— *Agenda 21, Chapter 7, Section 7.9, paragraph (g)*
