Insta-Snow is the original Instant Snow powder that turns ordinary water into a white fluffy substance that looks like real snow in seconds! You won't believe your eyes. Just add water to the mysterious white powder and in seconds the transformation begins.

The water magically changes into a fluffy white powder that looks just like snow.

How does Insta-Snow work?

It's a safe, non-hazardous material that acts like microscopic sponges to create an amazing, erupting experience. Don't be fooled by imitations! Steve Spangler's Insta-Snow is the only snow powder that actually erupts. No stirring - no mixing - no messing around. Just add water and wait for the **ooohs and ahhs!**
