## About us

The Carbon Trust's mission is to accelerate the move to a low carbon economy, by working with organisations to reduce carbon emissions now and develop commercial low carbon technologies for the future.

[UK cost map: businesses potentially saving over £2.5 billion a year through carbon reduction measures](#)

### What is the Carbon Trust?

We cut carbon emissions now:

- by providing business and the public sector with expert advice, finance and accreditation
- by stimulating demand for low carbon products and services.

We cut future carbon emissions:

- by developing new low carbon technologies through project funding and management, investment and collaboration
- by identifying market barriers and practical ways to overcome them.

### Press centre and communications

The [latest press releases](#) from the Carbon Trust including an archive of past releases and contact information for the Carbon Trust press office.

Also available, a selection of Carbon Trust [reports](#), [briefings](#) and [speeches](#).
