NASA Visitors Center and Tours

The general public is welcome to visit and tour many NASA installations. Some NASA Centers operate their own visitors centers, and others have contractual arrangements with private firms. Admission fees are charged at some sites. To check on hours, admission and tour availability, visit these Web pages:

NASA Headquarters, 300 E St. SW, Washington, D.C.

NASA Headquarters does not have its own visitors' center, but it is located four blocks south of the Smithsonian Institution's [National Air & Space Museum](#), which houses an extensive collection of aeronautics and space program artifacts. The NASA Headquarters [Information Center](#) offers some information brochures, mission decals and posters for free and sells various NASA publications and directories by phone or mail.

If you're interested in exploring more space related sites in the Washington DC area check out our [Interactive Map](#).
